1. Qualitative Information on Quarterly Financial Results

(1) Explanation of Operating Results

The Japanese economy is gradually recovering. In terms of future prospects, amid the improvements in employment and personal income situations, a gradual recovery is expected to continue owing to the effects of various policies. However, there is a risk that a downturn in overseas economies will put downward pressure on Japan's economy due to the impact of monetary tightening worldwide, etc. In addition, sufficient heed must be paid to impacts caused by rising prices, changes in the financial and capital markets, etc.

In such an environment, with a synergy between "consulting services" and "investment," the Group creates value in a wide range of industries and companies and creates new markets that solve social issues. In consulting business, we define the key three transformations that companies must address in the digital economy as; "Digital Transformation" to transform the core business model and achieve significant performance improvements through a productivity revolution, "Service Transformation" to build a business model that will serve as a new growth engine in growth markets, and "Management Transformation" to build a management platform. We have professionals with diverse skills who are working to solve corporate issues, create new value, and co-create new businesses and industries through collaboration among companies. In the investment business, the focus is on the "regenerative & wellbeing" area, such as city development, food, and wellness. Through the linkage with our consulting business, we support the growth and enhancement of our investee companies' corporate value.

The Group's revenue for the six months ended September 30, 2023 amounted to \\$10,639 million (up 32.5% year on year).

Cost of revenue stood at ¥5,678 million (up 39.2% year on year). In a response to strong demand, outsourcing expenses increased.

Selling, general and administrative expenses were \(\frac{\pma}{2}\),945 million (up 19.4% year on year) due to the increase in sundry expenses and recruiting expenses associated with the increase in the number of personnel and the revived face-to-face activities.

Due to an increase in revenue, gross profit increased by \\pm\$1,012 million to \\pm\$4,961 million (up 25.7% year on year), operating profit increased by \\pm\$533 million to \\pm\$2,016 million (up 36.0% year on year), and ordinary profit increased by \\pm\$555 million to \\pm\$2,087 million (up 36.2% year on year).

Profit before income taxes came to $\frac{2}{0.00}$, million (up 36.2% year on year), and profit attributable to owners of parent came to $\frac{1}{0.00}$, million (up 66.2% year on year).
